notes The product is completely bio-degradable and recyclable. Symbol Wrap is produced by special runs available upon request, and need a minimum lot of production.

The Company reserves the right to modify the technological features of the product in relation to market requirements.

Symbol Wrap is a paper specially designed for covering boxes. Its high quality physical-mechanical characteristics, together with an excellent printing result, make Symbol Wrap the ideal paper for this application.

applications

Can be used without problems with the main printing systems: letterpress, offset, blind embossing, hot foil stamping and screen-printing. For offset printing, the characteristics of the coated side are comparable to our Symbol Freelifa Satin.

printing
suggestions

Good results can be expected with all the main converting process: cutting, die-cutting, scoring, glueing, varnishing and plastic lamination.
