notes

The product is completely biodegradable and recyclable. Special runs available upon request.

The Company reserves the right to modify the technological features of the product in relation to market requirements.

Universale Xerografia is a white uncoated paper specific for the use with photocopier and electro-photographic printers, with toner-based technology. According to “Quality Enough” standard, it is usable with acceptable results also with inkjet printers. The optimum condition of storage environment and of use of the product are: temperature between 17 and 23°C (63-73°F); relative humidity 50% ± 5. We recommend to leave the paper sealed in its wrapping until its utilization.

applications
